

User Manual

MYNT F1 RECHARGEABLE MULTI-USAGE FAN

F1.

Please read and keep this manual carefully before using the product.

PRODUCT FEATURES

1. It is possible to input current to the fan through USB sockets, mobile power supplies, mobile phone adapters, etc., to meet different scenarios.
2. Use brushless motors: low interference, smooth operation, long service life, safer, more stable, and quieter.
3. Switching mode:
 -  Long press to turn on the main unit and activate the remote control, then tap to switch to 5-speed wind cycle.
 -  Tap to turn the oscillation function on or off.
 -  Press the start timer for 1h-8h (press once to increase 1h until 8h and cycle in sequence)

CLEANING FUNCTION

1. When cleaning this product, ensure that the fan is disconnected from the power supply before removing the protective casing.
2. The front and rear covers of the fan are detachable, and the fan blades and the outside of the body can be wiped with a clean cloth. After cleaning, please let the components stand completely dry before installation and use.

3. It is prohibited to use water or other liquids to clean electrical parts such as motors, power, switches and etc.
4. Do not touch the power supply and electrical components with damp hands or cloth.
5. It is prohibited to immerse main body in water or other liquids.

TECHNICAL SPECIFICATIONS

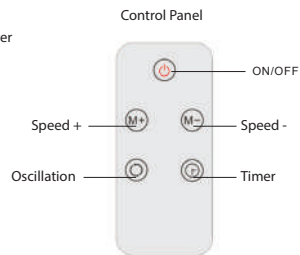

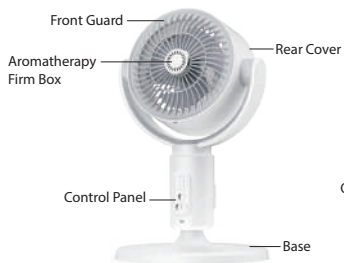

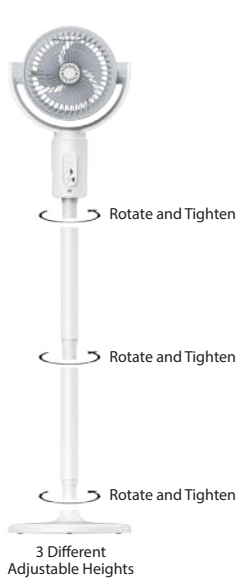

Product Name	Rechargeable Multi-usage Fan
Model	F1
Rated Current	2A
Rated Voltage	5V
Rated Power	10W
Direct Insertion Model	No Battery
Rechargeable Batteries	ION 18650-3.7V
Material	ABS / POM / PP / Electronic Component

NOTE

- 1.For first use, please fully charge the battery. The product battery is specially supplied by our factory, so please do not replace or use non factory configurations without authorization. To prevent product short circuits and damage to chips, the battery should be used.

2. When the fan is working, the fan blades rotate at high speed. It is prohibited to insert fingers into them to avoid danger.
